TO BE COMPLETED BY THE PROPERTY OWNER OR THEIR AUTHORIZED AGENT

The purpose of this questionnaire is to help determine if you have any special plumbing or activities that pose an increased risk of contamination to the city water system. Please fill out the following questionnaire and check the appropriate boxes that apply to your project.

Backflow prevention assemblies shall be installed at all service connections and/or all fixtures where in the judgment of the City of Lake Jackson, the nature of activities on the premise may present a nuisance or hazard to the public water system. Residential projects may be required to provide premise isolation as a minimum protection. Installed devices are required to be tested annually with test results and certification provided to the City of Lake Jackson.
